METALLURGIA—Index to Volume XXXVIII

MAY 1948—OCTOBER 1948

A

Page

Absorptiometric Determination of Chromium in High-Speed Steels by Sodium Chlorate Oxidation. By F. E. Eborall, A.Met., A.I.M. 135–136
Adhesion of Enamel Finishes to Electro-Plated Cadmium Coatings. By E. E. Halls 75–78
Alloy Die Steels. By L. Sanderson 147–152
Alloys, The Resistance of, to Corrosion during the Processing of Some Foods. By J. F. Mason, Jr. 320–327
Aluminium and its Alloys (The Potentialities of) for the Paper-making Industry 340–341
Annealing Furnaces, Portable Cover Sheet. By L. G. A. Leonard. 43–46
Arc Welding, High-Manganese Steel and its Depositions by. By R. W. Edwards 12–14–57
Atomic Energy Research Establishment 207–211
Austenitic Steel Tubes, High-Creep Strength. By G. T. Harris, M.A., F.Inst.P., and W. H. Bailey, A.Met.I.I.M. 189–192

B

British Cast Iron Research Association. Review of work in progress. By J. G. Pearce, M.Sc., M.I.Mech.E., M.I.E.E. 273–275
British Ceramic Research Association. Outline of activities. By A. E. Dodd, M.Sc., A.R.I.C. 275–276
British Gas Turbines.. 2
British Industries Fair. .. 15–26, 59–62
British Iron and Steel Industry. A Review of Progress and Policy 137–143
British Iron and Steel Research Association. Activities during the past year 270–272
British Welding Research Association. Review of the year's work. By F. A. Fox, D.Sc., F.I.M. 276–279

C

Cadmium Coatings (Electro-Plated), The Adhesion of Enamel Finishes to. By E. E. Halls 75–78
Carbide Die Maintenance. By Richard Saxton 314–316
Carbon and Low-Alloy Steels, The Determination of Copper in. B.I.S.R.A. 342–345
Carburising (Gas) with Town's Gas. By D. S. Laidler, B.Sc., Ph.D., A.R.I.C., A.I.M. .. 46–49
Cast Irons, Nodular: Their Production and Properties. By H. Morrogh and J. Grant .. 153–160
Centreless Plunge-Grinding .. 285–286
Chemical Analysis (The) of a Permanent Magnet Alloy. By C. H. R. Gentry. 108–113
Chromium in High-Speed Steels, the Absorptiometric Determination of, by Sodium Chlorate Oxidation. By F. E. Eborall, A.Met., A.I.M.. .. 135–136
Colvilles' Clyde Iron Works, recent installation at .. 143–146, 152

Page

Combating Corrosion of Iron and Steel. Corrosion Committee of the B.I.S.R.A., and its Sub-Committees 104–106
Converter Practice (Side-Blown), The Application of Oxygen-Enrichment to. By J. L. Harrison, Dr. W. C. Newell, and A. Hartley 193–200
Co-operative Research Activities. Reports of the Work of British Research Laboratories and Associations 267–282
Copper in Carbon and Low-Alloy Steels, the Determination of, B.I.S.R.A. 342–345
Corrosion of Iron and Steel, Combating. Corrosion Committee of the B.I.S.R.A., and its Sub-Committees 104–106
Corrosion of Iron and Steel, Meeting. First Report of the Methods of Testing (Corrosion) Sub-Committee, and Discussion of. Presented by Dr. J. C. Hudson 201–202
Service Trials of Painting Schemes Applied to a Steelworks Gantry. Dr. J. C. Hudson 202
The Protection of Iron and Steel by Various Non-Metallic Coatings. By Dr. J. C. Hudson and Dr. T. A. Banfield 202–203
Studies on Anti-Fouling Compositions, Parts I — III. By Dr. H. Barnes 203–204
Service Tests of Experimental Anti-Fouling Compositions. By Dr. H. Barnes, M. W. H. Bishop and K. A. Pyefinch.. 204
Cementiferous Paints. By Dr. J. E. O. Mayne and Dr. R. S. Thornhill 204–205
Marine Exposures of Cementiferous Painting Schemes. By K. A. Pyefinch 205–206
Organic Corrosion Inhibitors 282–283
Microbiological Corrosion .. 283–285
Corrosion (The Resistance of Alloys to) during the Processing of Some Foods. By J. F. Mason, Jr. 320–327
Costing for the Laboratory. By Laurence J. A. Haywood 316–319
Crack Detection Methods, Some. By Horace Manley, B.Sc. 165–168
Cyclic Annealing, Isothermal Quench Furnace for. Ajax Electric Co., Philadelphia .. 49

D

Deformations of Metals and Alloys under Longitudinal Impact Loads — Part II. By Dr. Georges Welter, 287, 292, 328–330
Descaling (Molten Salt) by the Efco-Virgo Process. By J. A. Monks and J. McMullen, A.I.M. 311–314
Detergents, Wetting and Emulsifying Agents. By P. D. Liddiard. 37
Die-Casting Progress, Part IV. By Dr. A. C. Street 3–5

Page

Die Castings (Pressure), High Quality. By James L. Erickson 212–214
Die Steels, Alloy. By L. Sanderson 147–152

E

Education, Plea for a Broader .. 124
Electrolytic Tantalum Powder, The Sintering of. By Rupert H. Myers, M.Sc., Ph.D.. .. 307–310
Electron in Theory and Practice 123
Electro-Plated Cadmium Coatings, the Adhesion of Enamel Finishes to. By E. E. Halls 75–78
Electro-Zinc Phosphate Coatings for Iron and Steels. By E. E. Halls 34–36
Elevated Temperature Fatigue-Testing Machine (Rotating-Load). By J. McKeown, D.Sc., M.I.Mech.E., F.I.M., and L. H. Back, B.Sc. 247–254
Emulsifying and Wetting Agents and Detergents. By P. D. Liddiard 37
Enamel Finishes, the Adhesion of, to Electro-Plated Cadmium Coatings. By E. E. Halls .. 75–78

F

Fatigue-Testing Machine; A Rotating Load, Elevated Temperature. By J. McKeown, D.Sc., M.I.Mech.E., F.I.M., and L. H. Back, B.Sc. 247–254
Ferrous Metals, Hydrogen, Nitrogen and Oxygen in, Part VI. By E. C. Pigott 6–12
Foods, The Resistance of Alloys to Corrosion during the Processing of Some. By J. F. Mason, Jr. 320–327
Furnace Control Panel, A Multi-Point. By C. L. M. Cottrell, B.Sc. 132–134
Furnace (Isothermal Quench) for Cyclic Annealing. Ajax Electric Co., Philadelphia 49
Furnaces, Portable Cover Sheet Annealing. By L. G. A. Leonard 43–46
Furnace Pressure Control in Relation to Performance. By C. H. Stone 161–164
Furnaces (Melting) in German Steel Foundries. By Dr. Ing. Hans Stein and Dr. Ing. Karl Roesch, Remscheid. 85–89

G

Gas Carburising with Town's Gas. By D. S. Laidler, B.Sc., Ph.D., A.R.I.C., A.I.M.. 46–49
Gas Turbines (British) 2
German Steel Foundries, Melting Furnaces in. By Dr. Ing. Hans Stein and Dr. Ing. Karl Roesch, Remscheid 85–89

H

Hard Metals, Modern Uses of, By H. Burden, B.Sc. 27–33
Harwell, Progress in research and development of atomic energy 207–211
W. H. Hatfield Memorial Lecture. Prof. Robert F. Mehl. "The Decomposition of Austenite by Nucleation and Growth Processes. 96

Page

Heat-Treatment, Salts for. By Ernest Hague 39–43
Heat-Treatment Furnace Installations 50–57
High Creep Strength Austenitic Steel Tubes. By G. T. Harris, M.A., F.Inst.P. and W. H. Bailey, A.Met., L.I.M. .. 189–192
High-Manganese Steel and its Deposition by Arc Welding. By R. W. Edwards. 12–14, 57
High-Speed Steels, The Absorptiometric Determination of Chromium in, by Sodium Chlorate Oxidation. By F. E. Eborall, A.Met., A.I.M. .. 135–136
High-Speed Steels, The Colorimetric Estimation of Tungsten in, Using Ammonium Thiocyanate and Titanous Chloride. By R. St. J. Emery and D. W. Curtis 113–114
Hydrogen, Nitrogen and Oxygen in Ferrous Metals. Part VI. By E. C. Pigott 6–12

I

Industry and Steel 69
Institute of Metals 332–339
Micro-Hardness Testing of Metals. By E. Wilfred Taylor, C.B.E., F.Inst.P... 332–333
The Measurement of the Damping Capacity of Metals in Torsional Vibration. By G. A. Cottell, K. M. Entwistle, M.Sc., and Prof. F. C. Thompson, D.Met., M.Sc. 333–335
The Effect of Crystal Arrangement on "Secondary Recrystallisation" in Metals. By J. S. Bowles, M.Sc., and W. Boas, Dr. Ing... 335–338
Observations on the Annealing Characteristics of an Aluminium-Copper-Magnesium Alloy. By Maurice Cook, D.Sc., Ph.D., F.I.M., and T. L. Richards, B.Sc., Ph.D., F.I.M. 338–339
Inventions, Development of. By S. T. Madeley 131–132
Iron and Steel, Combating Corrosion of. Corrosion Committee of the B.I.S.R.A., and its Sub-Committees 104–106
Iron and Steel, Electro-Zinc Phosphate Coatings for. By E. E. Halls 34–36
Iron and Steel Institute.
Construction and Repair of Open-Hearth Furnaces. By D. C. Muir 96–97
The Design of Open-Hearth Gas Ports. By M. P. Newby, B.Sc., A.Inst.P. 97
Installation and Use of Instruments on Open-Hearth Melting Furnaces. By R. C. Baker, A.Met., A.I.M... .. 97
The Production of Nodular Graphite Structures in Cast Iron. By H. Morrogh and W. J. Williams, B.Sc. 98–99
The Carbides in Iron-Carbon-Silicon Alloys and Cast Irons. By D. Marles 99
Abnormal Creep in Carbon Steels. By J. Glen, B.Sc., A.R.T.C., A.I.M. 100
The Creep Properties of Molybdenum, Chrome-Molybdenum and Molybdenum-Vanadium Steels. By J. Glen, B.Sc., A.R.T.C., A.I.M. 100

Page

A Micro-Examination of Eight Steels for the Inclusions Sub-Committee. By J. H. Whiteley, D.Sc., F.R.I.C. .. 101
The Study of Segregations and Inclusions in Steel by Micro-Radiography. By W. Betteridge, B.Sc., Ph.D., F.Inst.P., and R. S. Sharp, B.Sc., L.I.M. 101–102
Some Thermodynamical Aspects of the Formation of Inclusions in Mild Steel Weld Metal. By E. C. Rollason, Ph.D., M.Sc., and E. Bishop, B.Sc. (Tech.).. 102
A Comparison of Moulds of Standard Composition and of Approximately Ingot Mould Sub-Committee Composition. By W. L. Kerlie, B.Sc... .. 103
Formation of "Double Skin" or "Curtaining" on Top Poured Mild Steel Ingots. By P. Walker 103
Mould Weight/Ingot Weight Ratio and its Relation to Mould Consumption. By N. H. Bacon, A.Met., F.I.M. 103
Iron and Steel Making, Oxygen in. 188
Iron and Steel, the Determination of Silicon and Manganese in, B.I.S.R.A... 346–352
Isothermal Quench Furnace for Cyclic Annealing. Ajax Electric Company, Philadelphia.. 49

L

Loads (Longitudinal Impact), Micro-and Macro-Deformations of Metals and Alloys Under. By Dr. Georges Welter 287–292, 328–330
Longitudinal Impact Loads, Micro- and Macro-Deformations of Metals and Alloys under, Part II. By Dr. Georges Welter 287–292, 328–330
Low-Carbon Mild Steel, Welding Characteristics in. By A. J. Hipperson (Report for the FR.3 Committee of the British Welding Research Association) 295

M

Machine Tool and Engineering Exhibition 215–223
Machining Work-Hardening Steels. By W. M. Halliday 254–256
Macro- and Micro-Deformations of Metals and Alloys under Longitudinal Impact Loads. By Dr. Georges Welter. 287–292, 328–330
Magnesium Alloy Scrap. The Availability of Helium. By A. G. Arend 173
Magnesium Alloys, Pressure Die-Casting of, Die-Casting Progress, Part IV. By Dr. A. C. Street 3–5
Manganese and Silicon in Iron and Steel, The Determination of, B.I.S.R.A. 346–352
Manganese Steel (High) and its Deposition by Arc Welding. By R. W. Edwards.. .. ..12–14, 57
Measurement of Secondary Current, Voltage and Electrode Load Cycles for Spot-Welding Machines. By Dr. G. E. Bennett and H. E. Dixon .. 38

Page

Metallographic Technique (A Refined) for the Examination of Surface Contours and Surface Structure of Metals By A. J. W. Moore, Ph.D. 71–74
Metals and Alloys, Micro- and Macro-Deformations of, under Longitudinal Impact Loads. By Dr. Georges Welter. 287–292, 328–330
Metals, The Thermal Etching of, By R. Shuttleworth, B.Sc. ..
Melting Furnaces in German Steel Foundries. By Dr. Ing. Hans. Stein and Dr. Ing. Karl Roesch, Remscheid 85–89
Micro- and Macro-Deformation of Metals and Alloys under Longitudinal Impacts Loads, Part II. By Dr. Georges Welter 287–292, 328–330
Mild Steel (Low-Carbon), Welding Characteristics in. By A. J. Hipperson (Report for the FR.3 Committee of the British Welding Research Association) 295
Molten Salt Descaling by the Efco-Virgo Process. By J. A. Monks and J. McMullen, A.I.M. 311–314
Molybdenum in Iron and Steel, Estimation of. By E. J. Ronnie 235–236
Multi-Point Furnace Control Panel, A. By C. L. M. Cottrell, B.Sc. 132–134

N

National Physical Laboratory, Metallurgical Research at the By Dr. N. P. Allen, M.Met. .. 267–270
Nodular Cast Irons, Their Production and Properties. By H. Morrogh and J. Grant .. 153–160
Nitrogen, Hydrogen and Oxygen in Ferrous Metals. Part VI. By E. C. Pigott 6–12

O

Oxygen Enrichment (The Application of) to Side-Blown Converter Practice. By J. L. Harrison, Dr. W. C. Newell, and A. Hartley 193–200
Oxygen, Hydrogen and Nitrogen in Ferrous Metals . Part VI. By E. C. Pigott 6–12
Oxygen In Iron and Steel Making 188

P

Paint Inhibitors (New), Tests on, Protective Coatings Sub-Committee of the Iron and Steel Institute and B.I.S.R.A. .. 38
Paper-making Industry, The Potentialities of Aluminium and its Alloys for the 340–341
Permanent Magnet Alloy, The Chemical Analysis of a. By C. H. R. Gentry 108–113
Phosphate Coatings (Electro-Zinc), for Iron and Steel. By E. E. Halls 34–36
Photometer (Simple) for the Rapid Determination of Molybdenum (Estimation of Molybdenum in Iron and Steel). By E. J. Ronnie 235–236
Pig Iron Production, Increase in, Trends in Manufacture and Plant 143–146, 152
Portable Cover Sheet Annealing Furnaces. By L. G. A. Leonard 43–46
Powder Metallurgy Conference.. 219–230

Page

Powder Metallurgy Notes. By J. Heuberger 169–171
Pressure Die-Casting of Magnesium Alloys. Die-Casting Progress, Part VI. By Dr. A. C Street 3–5
Pressure Die-Castings, High Quality. By James L. Erickson 212–214
Production Engineering Research Association. Outline of activities. By Dr. D. F. Galloway, Ph.Sc., M.I.Mech.E., M.I.P.E., M.I.E.E., B.Sc.Hons., M.Inst.Pet. 279–282
Progress and Policy in the British Iron and Steel Industry 137–143

Q

Quality and Craftsmanship .. 187
Quench Furnace (Isothermal for Cyclic Annealing. Ajax Electric Co., Philadelphia 49

R

Rotating-Load, Elevated Temperature Fatigue-Testing Machine. By J. McKeown, D.Sc., M.I.Mech.E., F.I.M., and L. H. Back, B.Sc. 247–254

S

Salts for Heat-Treatment. By Ernest Hague 39–43
Side-Blown Converter Practice, The Application of Oxygen-Enrichment to. By J. L. Harrison, Dr. W. C. Newell and A. Hartley 193–200
Silicon and Manganese in Iron and Steel. The Determination of, B.I.S.R.A. 346–352
Sintering of Electrolytic Tantalum Powder. By Rupert H. Myers, M.Sc., Ph.D. 307–310
Sodium Chlorate Oxidation, The Absorptiometric Determination of Chromium in High-Speed Steels by. By F. E. Eborall, A.Met., A.I.M. .. 135–136
Spheroidisation of Steel, Factors Influencing the. By E. V. Tull 257–262
Sprayed Metal, Some Characteristics of. By G. Tolley, M.Sc. 263–266
Steel Allocations 245
Steel and Industry 69
Steel and Politics 305–306
Steel, Factors Influencing the Spheroidisation of. By E. V. Tull 257–262
Steel Foundries (German), Melting Furnaces in. By Dr. Ing. Hans Stein and Dr. Ing. Karl Roesch, Remscheid 85–89
Steels, Alloy Die. By L. Sanderson 147–152
Steels for Welded Structures, Some Modern Development in. By W. Barr, A.R.T.C., F.I.M. 79–84
Steels, Machining Work-Hardening. By W. M. Halliday .. 254–256
Steel Tubes, High Creep Strength Austenitic. By G. T. Harris, M.A., F.Inst.P., and W. H. Bailey, A.Met.L.I.M. 189–192
Structures (Welded), Some Modern Developments in Steels for. By W. Barr, A.R.T.C., F.I.M. 79–84
Surface Contours and Surface Structure of Metals, A Refined Metallographic Technique for the Examination of. By A. J. W. Moore, Ph.D. 71–74

T

Page

Tantalum Powder (Electrolytic), The Sintering of. By Rupert H. Myers, M.Sc., Ph.D. 307–310
Taper Sectioning. By A. J. W. Moore, Ph.D. 71–74
Thermal Etching of Metals, The, By R. Shuttleworth, B.Sc. .. 125–131
Town's Gas, Gas Carburising with. By D. S. Laidler, B.Sc., Ph.D., A.R.I.C., A.I.M.. 46–49
Tubes, High Creep Strength Austenitic Steel. By G. T. Harris, M.A., F.Inst.P., and W. H. Bailey, A.Met.L.I.M. .. 189–192
Tungsten, The Colorimetric Estimation of, in High-Speed Steels Using Ammonium Thiocyanate and Titanous Chloride. By R. St. J. Emery and D. W. Curtis 113–114

V

Vehicle Castings, New Material for. Hale & Hale (Tipton), Ltd. 134

W

Welded Structures, Some Modern Developments in Steels for. By W. Barr, A.R.T.C., F.I.M. 79–84
Welding Characteristics in Low-Carbon Mild Steel. By A. J. Hipperson (Report for the FR.3 Committee of the British Welding Research Association 295
Wetting and Emulsifying Agents and Detergents. By P. D. Liddiard 37
Work-Hardening Steels, Machining. By W. M. Halliday .. 254–256

Z

Zinc Alloy Die-Castings, Exhibition of 90–91

CORRESPONDENCE.

Gas Carburising with Town's Gas. M. L. Becker and E. Ineson (B.I.S.R.A.) and D. S. Laidler (Wild-Barfield) Electric Furnaces, Ltd.) 91–94

REVIEWS.

Anodic Oxidation of Aluminium and Aluminium Alloys. Information Bulletin No. 14. Aluminium Development Association. 214
Commercial Castings in Hiduminium. High Duty Alloys, Ltd. 176
Electrolytic Polishing. Le Polissage Electrolytique des Surfaces Metalliques et ses Applications, par P. A. Jacquet. Editions Metaux, 1948 175
Elements of Fuel Technology. Godfrey W. Himus.. 293
Evacuated Bimetal Switches. Sunvic Controls, Ltd. 236
Failure of Metals by Fatigue. Symposium held in the University of Melbourne 293–294
Harper Mechanite Die Material. John Harper (Mechanite), Ltd. 236
Heat-resisting Steels. Hadfields, Ltd. 176
Heat-Treatment of Aluminium Alloys. Northern Aluminium Co., Ltd. 234
Hints on Steel. Sanderson Bros., & Newbould, Ltd. .. 294
Index to 1947 A.S.T.M. Standards 294
Introduction to Metallurgy. Joseph Newton 294
Iron and Steel Distribution Booklet. "Notes to Consumers." H.M. Stationery Office 114
Limits and Fits for Locomotive Work. Locomotive Manufacturers' of Great Britain .. 171
Load-Carrying Capacity of Frame Structures. Sixth Interim Report of the F.E./1 Committee. British Welding Research Association 240
Philips Research Reports. Philips Electrical, Ltd. 164
Recommendations for the Design of Arc Welded Mild Steel Machinery Construction. British Welding Research Association 134
Statistical Summary of the Mineral Industry of the British Empire and Foreign Countries 168
Stellite Service. Deloro Stellite, Ltd. 232
Werkstoffe Aluminium und Seine Anodische Oxydation. By M. Schenk, A. Francke A. G., Berne 175–176

MICROANALYSIS.

Analytic Lamp (Ultra-Violet), A Simple Inexpensive 67–68
Aluminium Alloys, Improved Gravimetric Determination of Silicon in, developed in Germany during the War. By W. Stross 63–65
Aluminium Alloys, Micro determination of Zinc in. By D. F. Phillips and L. J. Holton.. 237–239
Bomb Methods in Microchemistry. Part 1. By J. H. Beaucourt 297–299
Drying Oven (An All-Purpose) for use in Microchemical Analysis. By G. Ingram .. 239-240
Gases, A Device for Testing, (Miscellaneous Microchemical Devices XV). By J. T. Stock and M. A. Fill.. 356
Glass Spoons (A simple method for the construction of) for Microchemical Analysis. By A. J. Nutten and A. McLaren 300
Gravimetric Determination (Improved of Silicon in Aluminium Alloys, developed in Germany during the War. By W. Stross 63–65
Group Separations in Inorganic Qualitative Analysis. By Francis R. M. McDonnell and Cecil L. Wilson, 115–117, 177–179
Halogens, Methods for the Determination of (Bomb Methods in Microchemistry, Part 1). By J. H. Beaucourt 297–299
Halogens, Micro Methods for the Determination of. By J. H. Beaucourt 353–355
Inorganic Qualitative Analysis, Group Separations in, Part I. By Francis R. M. McDonnell and Cecil L. Wilson 115–117, 177–179
Lamp (Ultra-Violet Analytic), A Simple Inexpensive. By G. Robinson, A.R.I.C. 67–68
Magnesium Alloys, Rapid Determination of Small Amounts of Silicon in. By D. F. Phillips and S. E. Hermon. .. 179–180
Mercurous Mercury, The Separation of, in Qualitative Microanalysis. By A. J. Nutten .. 300

Page

Microburette, An Improved Horizontal. By A. Lacourt .. 355–356
Micro chemical Analysis, An All-Purpose Drying Oven for use in. By G. Ingram 239–240
Micro chemical Devices, Miscellaneous. By J. T. Stock and M. A. Fill.. .. .. 118, 356
Micro determination of Zinc in Aluminium Alloys. By D. F. Phillips and L. J. Holton .. 237–239
Micro-Methods for the Determination of Halogens. By J. H. Beaucourt 353–355
Micro-Pipette, An Improved. By P. F. Holt, B.Sc., Ph.D. .. 299–300
Micro-Titration, Some Apparatus for. By P. F. Holt and D. G. Stringer 65–67
Separation of Mercurous Mercury in Qualitative Micro analysis. By A. J. Nutten 300
Silicon (Improved Gravimetric Determination of) in Aluminium Alloys, developed in Germany during the War. By W. Stross.. 63–65
Silicon (Rapid Determination of Small Amounts of) in Magnesium Alloys. By D. F. Phillips and S. E. Hermon .. 179–180
Sulphuretted Hydrogen, Schemes Based on—Group Separations in Inorganic Qualitative Analysis. By Francis R. M. McDonnell and Cecil L. Wilson 115–117, 177–179
Ultra-Violet Analytic Lamp, A Simple Inexpensive. By G. Robinson, A.R.I.C. 67–68
Zinc (Microdetermination of) in Aluminium Alloys. By D. F. Phillips and L. J. Holton .. 237–239

METALLURGICAL DIGEST.

Arc Welding Red Brass. Louis P. Benua.. 304
Brazing Aluminium Alloys. H. R. Clauser 183–185
Carbide Inserts for Single Point Tools. Thomas E. Lloyd .. 121
Cathodic Protection of Steel in Sea Water with Magnesium Anodes. R. A. Humble ..Ad. Page 62
Copper-Aluminium Joints and Combination Materials made by Upset Welding. R. T. Gillette 241–242
Dissimilar Metals Joined by Step Brazing Methods. I. S. Goodman 303–304
Eliminating Cracking in Magnesium Arc Welds 182–183
Evaluating Hydrogen Embrittlement in Acid Pickling. M. Rosenfeld 357–359
Examination of Aluminium Conductor Cables after 15–25 Years' Service. J. Herenguel 244
Fatigue Tests of Spot Welds. G. Welter .. .. .. Ad. Page 62
Further Investigations on the Pressure Welding of Light Alloy Sheet. Transactions of the Institute of Welding .. 341
Gas Welds in a High-Strength Aluminium Zinc-Magnesium Copper Alloy. Report by J. Pendleton, B.Eng., A.I.M., Transactions of the Institute of Welding. 341
Indium Plated Lead Bearings Withstand High Stresses. Joseph Albin. 359–360
Influence of Small Contents of Lead on the Hot-Workability of Austenitic Stainless Steels. Siegge Bergh 186
Metal Coatings by High-Vacuum Evaporation. Philip Godley 121
New High-Alloy Hard-Facing Materials adapted to Automatic Arc Welding.. 185–186
Powder Metallurgy as Applied to Permanent Magnets. A. E. Franks 122
Practical Method Developed for Plating on Magnesium. H. K. de Long. 181–182
Production Electroforming. Thomas S. Blair 119–121
Proper Precautions Eliminate Cracking in Tool Steel Heat-Treatment. S. D. Smoke .. 186
Radio-active Tracers.. 243–244
Recommended Practice for Spot-Welding Mild Steel. Transactions of the Institute of Welding. 319
Russian Experiments with Oxygen in Steel-Making. V. V. Kondakov 302
Silicon Bronze Welding Problems Overcome Through Inert-Arc Method. Peter J. Gurklis .. 122
Soft Alloys Used to Make Short-Run Sheet Metal Dies. K. Rose 185
Stabilisation of Austenitic Stainless Steel. 304, and Ad., page 62
Tonnage Oxygen.. 242–243
Unappreciated Advantages of Modern Grey Iron. Frederick G. Sefing 301–302

BUSINESS NOTES & NEWS.

Aerofoil Fans, a New Range of, Woods, of Colchester, Ltd. .. 78
Aircraft (British) Display.. .. 246
Aluminium Alloys, Cinema Roof, in 172
Aluminium, Ltd.. 231
Aluminium Research Laboratory, New, Aluminium Laboratories, Ltd., Arvida, Quebec 94
Aluminium Wire and Cable Co., Ltd. 180
Australia, Investigational and Experimental Laboratories in, 70
